

2014 Speak Up Survey

Speak Up 2014

Grades 3 - 5: Individual

District: SUNAPEE SCHOOL DISTRICT

Results based on 91 survey(s).

Note: Survey responses are based upon the number of individuals that responded to the specific question.

1 What grade are you in?

Response	# of Responses	% of Responses	State %	National %
Grade 3	21	24%	35%	29%
Grade 4	36	40%	17%	35%
Grade 5	32	36%	48%	36%

2 Are you a...

Response	# of Responses	% of Responses	State %	National %
Girl	40	45%	50%	49%
Boy	48	55%	50%	51%

3 How much do you know about how to use technology?

Response	# of Responses	% of Responses	State %	National %
I know more than others in my class	26	29%	26%	26%
I know the same as others in my class	48	54%	60%	57%
I don't know as much as others in my class	15	17%	15%	16%

4 What kind of school do you go to?

Response	# of Responses	% of Responses	State %	National %
----------	----------------	----------------	---------	------------

<i>I go to a regular school with a classroom teacher I see everyday</i>	88	99%	96%	91%
<i>My class is a blended learning class where I go to a school sometimes and other times I learn online</i>	1	1%	2%	4%
<i>I do all my learning online</i>	0	0%	0%	1%
<i>Other</i>	0	0%	1%	4%

**5 Do you do any of these things for school using computers or the Internet? Mark the things you do.**

<i>Response</i>	<i># of Responses</i>	<i>% of Responses</i>	<i>State %</i>	<i>National %</i>
<i>Go online to check my grades or turn in homework</i>	26	30%	21%	27%
<i>Use online textbooks</i>	8	9%	9%	16%
<i>Take tests online</i>	43	49%	47%	63%
<i>Use mobile apps</i>	40	45%	54%	33%
<i>Make a presentation</i>	50	57%	30%	35%
<i>Text message other students for help</i>	22	25%	11%	11%
<i>Text message my teacher with questions</i>	13	15%	5%	9%
<i>Email my teacher with questions</i>	36	41%	19%	17%
<i>Go online to do a project with other students</i>	37	42%	19%	26%
<i>Find a video online to help me with my homework</i>	21	24%	29%	29%
<i>Watch a video made by my teacher to help with my homework</i>	32	36%	15%	21%
<i>Play digital learning games</i>	60	68%	73%	72%

**6 Which of these things do you have for your own use? These should not be things that your school gave to you. Mark all the things that you use.**

<i>Response</i>	<i># of Responses</i>	<i>% of Responses</i>	<i>State %</i>	<i>National %</i>
<i>A phone with no Internet</i>	11	13%	19%	14%
<i>A phone with Internet (like iPhone, Samsung Galaxy)</i>	20	24%	39%	46%
<i>Laptop</i>	48	59%	54%	51%
<i>A laptop that can turn into a tablet</i>	5	6%	8%	11%
<i>A web-based laptop (like Chromebook)</i>	12	15%	9%	9%
<i>Tablet (like an iPad)</i>	49	60%	69%	60%
<i>A mobile reading device (like a Kindle or Nook)</i>	41	50%	33%	29%

**7 Do you go online when you are at home?**

<i>Response</i>	<i># of Responses</i>	<i>% of Responses</i>	<i>State %</i>	<i>National %</i>
<i>Yes and my internet is slow</i>	23	26%	26%	25%
<i>Yes and my internet is fast</i>	40	45%	46%	53%

Yes with a laptop, tablet, or smartphone	40	45%	48%	41%
No, I only go online at places where it is free (like the library)	8	9%	7%	11%

**8 Do you think everyone should have their own mobile device like a laptop, tablet, or Chromebook to use at school?**

Response	# of Responses	% of Responses	State %	National %
Yes	64	71%	75%	80%
No	26	29%	25%	20%

**9 When you grow up, would you like a job that uses science, math, or computers?**

Response	# of Responses	% of Responses	State %	National %
No, those sound too hard	3	3%	6%	4%
No, I like other things better	18	20%	27%	27%
Maybe, I would like to know more about them	12	13%	21%	21%
Yes, I might want a job like that	39	43%	30%	26%
Yes, I really want a job like that	18	20%	15%	21%

**10 How would you like to learn more about jobs and careers that you can have when you grow up? Mark the ones you would like.**

Response	# of Responses	% of Responses	State %	National %
Go to an after school program	22	26%	24%	29%
Go on a field trip to a company or an office	32	37%	45%	48%
Have people from those jobs talk to us at school	38	44%	50%	52%
Learn more about the job by playing an online game	34	40%	42%	38%
Learn about jobs from online videos	30	35%	42%	39%
Use a mobile app to learn about different jobs	38	44%	40%	37%
Participate in a science or math fair	29	34%	25%	32%
Go to a summer camp (like space camp)	34	40%	29%	33%
Use technology tools to make things (like 3D printers and maker software)	44	51%	37%	40%

**11 Would you like to learn how to write programs to make computers do things, like in Scratch or Minecraft?**

Response	# of Responses	% of Responses	State %	National %
No	24	27%	26%	25%
Yes	52	58%	69%	70%
We do this in my class already	0	0%	1%	3%
I do this in an after school program already	14	16%	4%	2%

**12 How would playing video, online, or digital games in school help you with your schoolwork? Mark boxes that you agree with.**

<i>Response</i>	<i># of Responses</i>	<i>% of Responses</i>	<i>State %</i>	<i>National %</i>
<i>Games would make it easier for me to learn</i>	38	42%	58%	54%
<i>I would be a better thinker and problem solver</i>	32	36%	40%	43%

**How could using technology in science or math make those subjects more interesting for you? What technology would you like to use to learn science or math?**

*Response*

---

SUNAPEE CENTRAL SCHOOL

playing math games and science.

I would use a computer and find science and math apps.

If math was harder so they made a math group with four kids in it.

have more games for hard math and lurne how to mack a app for science so you can go eney were in scool and be able to do the games

It would make it a lot more interesting and fun. My dad has and had a job about internet security and tech support,so I know quite a lot about it.

I would do math problems.I would also use a cumputers for math.For science I would use tablets.

It already is interesting

I could play games online

I would like to use IXL for math. I do not know what I would use for science.

a I paid

I will like to lern more of my math factes.

It would be more fun because we can do it with partners and just send it one another. I would like it if we could use cows, I-pads, and kindels

I would like to learn about sports history and carpentry.

Reading,Reporting

Because it feels like games but its not and its and it gets us ready for collage.

A laptop a iPod and a smart board.

I think a electronic device in your desk would make science and math more insereesting because it would be helpful if you needed to make a presentation you could just go into your desk

I pads, laptops and other devices.

Anne LECHRONEKS.

I would like to learn science and math on the computer and also a kindle or ipad.

I would like technology To be used more in science and in math at the school. I think it would be use full for me and other kids to learn about how to be able to get onto the internet or how to make videos or games. That is what I think about technology.

I think it would be more interesting because if your science teacher is a bit wrong the technology may help you. The technology that I would use is a laptop.

I would like to use a laptop for science. It would help when kids need to look things up on the internet.

I it would give more faces Computer or iPad.

I would wont to was a cinpwouter

You could find really cool and fun games on a kindle fire or a kindle fire hd.

googol chrome

How could using technology in science or math make those subjects more interesting for you? What technology would you like to use to learn science or math?

*Response*

SUNAPEE CENTRAL SCHOOL

computer or even an Ipad

Technology would make math more interesting because I could work at my own pace. I would like to use an I-Pad to work with math.

I would like to go to cool math to learn more math and also I like to get a computer to work on.

Personally books are better then internet I think.

By using technology in science or math, it makes things more fun and easier.

I want to use iPod's in school.

it would be kind of easier because you would only have to look it up.

I would like to use a iPod for technology in science and math. And it will be more portable to bring.:

I think that students could learn more about science if they researched it more and if they did more reports about it.

Using technology in math and science classes would help me by watching videos about it and researching things about the subject and some strategies that I can learn and use for the classes. I would use a kindle, laptop, an ipad, or an ipod to use for learning and researching in math, science and many other classes for now and for when I am older.

3D printer, our own phones, tablets(other things like tablets for instance, kindle, ipad, ipod nook)also our own laptops, computers, and any other electronics

I jut like to learn from my teacher.

technology

I think you could look up a lot of facts about stuff like the earth. Computers and Ipads.

I would like it if I could use more multiplication programs.

It would be fun because I don't normally use those thing for learning I would probably use macbooks

I would like to use ten marks, cool math, math games, science games, and science websites.

I think it would be easer to do stuff and tipe if other kids had access to the computer/ipads

I would use it everyday and I love it I mean if you want to know something you can look up them from the web and you can find some people who know about this

I would like to use it in science so I can make a science project and in math so I can learn and get better with my facts.

I would use the iPad my school gave me. So far I love using my iPad for science and math.

It would make things more interesting because, you can type words and not have to write words. Also, you can type a essay and then print it. Plus, it is more fun using electronics for kids. I would mostly like to use a I-Pad or a Laptop for math and science.

Doing math on a mobile device is very interesting since you can have the joy of working on a mobile device while your teacher can see how your doing without having to walk around and check in with students. It is easier to do science on a mobile device if there is a website or app that we can use to boost or jump start our learning about science.

I think that we should use I-Pads to learn science and math, because it will help kids learn, and if kids do not feel like writing, they can type their work. Kids can also work at their own speed instead of being rushed. Using technology in science/math make it more interesting for me, because I can experient in science, and I can do educational games for math.

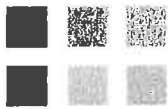

It would make it more interesting because when I am writing on a piece of paper I usually feel it is boring, if I was able to use technology, it would make it seem less boring to me. The kind of technology I would like to use is, online labs and fun math games.

I think that using any technology is cool but when we can us it for math and science will just make it even cooler to work with.

It would help because you could find videos and get apps to help you with what you are learning. For example you could look up videos about different science experiments or you could have a math app that could help you with a math problem on your homework. I think that the device would be an I-Pad.

**These comments are unedited and may contain material not suitable for all audiences. Please review before circulating.**

**How could using technology in science or math make those subjects more interesting for you? What technology would you like to use to learn science or math?**

*Response*

SUNAPEE CENTRAL SCHOOL

I would like to use more technology like personal laptops.

I think that technology is very cool and interesting if it can be used correctly. Also it is very helpful if I have forgot a assignments at school, I can just go on the internet or go on my schools iPad and get the assignments on there. And there are lots of learning game.

Math: I would be able to play and make many math games. Science: I would be able to play and make many math games. I would also be able to watch some science experiments online.

I like to use technology in science because I can look at cool experiments in google

I think that technology in science or math would be better because it is easier to do things. also, kids might not want to always have to sit through 100 math problems every day. Technology is a fun way for kids to learn and I think that adults should encourage it.

I would like to use ipads,comperts

brain pop

I think that using an IPad with the app Uber sense on it would be awesome. In Uber sense you can make any videos that you take on it slow motion. If were doing a fun science experiment, we could take a video of it then slow it down to see what happened and how it happened.

I already love school so I don't need anything else to make me happier. Accept maybe a maker space.

it would make them more interesting for me if I used the internet how to do a science experiment and play math games and stuff like math games. the ipad that I would recommend is the ipad 6, and the game would be the game I don't know whats it is called but it is a diving for pearls math game.

I like using the iPod's because there fun to use.

I would like to use ipads or Microsoft surfaces in class it would make it more interesting for me because I can be more creative.

We have ipads but it would be cool to have a laptop to have a little more freedom but right now it makes subjects even cooler when we get to draw and type instead of handwrite!

ipad

I like to use my IPad because when we are doing something and the teacher asks us about something we could write it down and then airplay it so the whole class or classes can see it! I would like to see IPads in a lot of schools because it does help me learn, also like a digital whiteboards that would be cool!!

I would like to learn how to find out how an engine stays running in science.

the technology I would want to use is Ipads, computers and Smartboards

Technology would make those subjects more interesting because I would want to learn more if I had fun educational games or learning sites. I would like to use Apple devices during math or science.

because games are really cool, fun and interesting.

it make it better and more fun

Internet

I like to use technology computers.

science would be more interesting when you use a laptop because you can look up vidios that that sientests made and watch them to learn more and in a good way.

Ipads and kindls. Also for science loking in frog boadys.

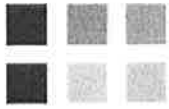

computer and tables

a program for science

I would like to use games that kids could go up and choose the answer that they think is the correct one to choose.

well a math app on my moms fone. And I have a kindle with math games beacause I need help with math . I would always like to make technology
