**Open-Ended Responses: Grades 6 - 8**  
**SUNAPEE SCHOOL DISTRICT**

**Some students are using social media tools, videos, and online games outside of school to explore or teach themselves about academic or school topics that interest them. How are you using technology outside of school to learn new things or skills? Tell us what you are learning about and the types of digital tools or resources that you are using.**

SUNAPEE MIDDLE HIGH SCHOOL

I am learning about the arts; music, art, fashion etc. and anything that interests me. It is different everyday for me. I usually use a computer and sometimes I use mobile devices. I read a lot of books though.

**Pick a school subject and tell us how using technology in that class could make that subject more interesting for you. Some things to think about for your response: what type of class would it be, what type of technology would you like to use, and how would that technology help you learn more.**
