

CURRICULUM DEVELOPMENT K-12

The Board will encourage and support the professional staff in its efforts to investigate new curricular ideas, develop and improve programs, and evaluate results.

The Superintendent or designee and principals will spearhead curriculum development for the school system. The Superintendent will set up curriculum committees for the study of curriculum improvements, including the selection of new instructional materials, as found necessary and desirable.

The Superintendent will submit to the Board recommendations developed by the curriculum committees and the professional staff. The Board, in reviewing and evaluating curriculum recommendations, may solicit community opinion. Recommendations will be submitted to the Board for its consideration and adoption.

All teachers have professional obligations to the school program beyond regular classroom duties, and those obligations include work on curriculum committees. It is expected that all teachers will make contributions to curriculum development.
