

## **ACHIEVEMENT ASSESSMENT**

For students in grades 9 through 11, a final assessment showing the requirements of the course will be determined by the teacher in conjunction with the principal prior to the beginning of each course.

The purpose of the evaluation is to measure student achievement and the effectiveness of instruction.

At the end of each course, students in grades 9-11 shall complete a final assessment showing they have met the requirements of the course outline.

The method of assessment will be determined by the teacher in conjunction with the principal prior to the beginning of each course.
